

Has a family member, loved one, or someone you support been under an **Assisted Outpatient Treatment (AOT)** order, also known as Kendra's Law, in the state of **New York**? We'd like to hear your voice!

A team of evaluators is doing a legislatively mandated study to understand experiences of AOT in New York State. We are trying to learn more about how people end up on AOT and AOT's impact on people and their loved ones.

We will be doing one-time interviews by phone or Zoom.

The team is made up of people from the Human Services Research Institute and the University of Pittsburgh. The team includes people with lived experience with mental health systems. The study is sponsored and funded by the New York State Office of Mental Health.
